

Quality Assurance Defect Report

CRM — FMS Bookings Module

1. Report Ka Maqsad

Ye report production CRM ke FMS Bookings module me testing ke dauran mile saare errors ko ek jagah consolidate karti hai. Har defect ke saath expected behaviour, actual observed behaviour aur uska screenshot diya gaya hai.

Development team se request hai ki report receive hone ka confirmation dein, Section A ke blockers ka ETA batayein, aur baaki items ka fix plan share karein. Kripya har reply aur commit message me defect ID (jaise BLK-01) zaroor mention karein, taaki status is report ke against track ho sake.

2. Defect Summary

ID	Problem	Priority	Module
BLK-01	Refresh ke baad bookings load nahi ho rahi	P0	Bookings
BLK-02	Account Verify — submit off, Stage 1 load fail	P0	Account Verify
BLK-03	Upload Approval me HTTP 503 error	P0	Approvals
BLK-04	Payment Collection form me HTTP 503 error	P0	Payments
BLK-05	Payment collection upload par error	P0	Payments
BLK-06	Checkout collection load nahi ho raha	P0	Checkout
DATA-01	Payment received time galat — SQL time aa raha hai	P1	Payments
DATA-02	Advance column me 0, jabki Rs. 20,000 dala tha	P1	Bookings
DATA-03	Group Booking me No. of People blank	P1	Group Booking
DATA-04	V3 me Currency / INR / Data Source blank	P1	Bookings V3
DATA-05	USD payment ka calculation INR me ho raha hai	P1	Payments
DATA-06	Updated PI link show nahi ho raha	P1	Proforma Invoice
FUNC-01	Complimentary par group booking status update nahi	P1	Group Booking
FUNC-02	Complimentary transport par 100% discount auto nahi	P2	Transport
FUNC-03	100% se zyada discount accept — total negative	P1	Edit Booking
FUNC-04	Test Reports me Drive folder link accept nahi	P2	Additional Info
FUNC-05	Not working report hua — clarification pending	P2	Bookings
FILT-01	Booking Taken By filter me naam 2-2 baar	P2	Filters
FILT-02	Duplicate entries ka count alag-alag	P2	Filters
PERF-01	Edit Booking form khulne me 7-8 second	P2	Edit Booking

ID	Problem	Priority	Module
PERF-02	Edit Booking submit hone me 1 min 15 second	P1	Edit Booking

Priority key: P0 — kaam ruk raha hai, turant fix karein. | P1 — data ya business logic galat hai, isi cycle me fix karein. | P2 — usability ya performance, agle release me schedule karein.

3. Defect Detail

Section A — Blockers (P0)

Ye defects booking workflow ko poori tarah rok rahe hain. Inhe turant fix karna zaroori hai.

BLK-01 Page refresh ke baad bookings load nahi ho rahi [P0]

Hona chahiye: Refresh karne par bookings list normal load honi chahiye.

Abhi ho raha hai: Refresh karne par "Unable to load bookings" error aa raha hai. Cache clear, hard refresh aur logout/login sab try kar liya, phir bhi issue wahi hai. Isse pehle ye page theek chal raha tha.

Figure 1 — Bookings load nahi ho rahi

BLK-02 Account Verify — submit button on nahi ho raha, Stage 1 load fail [P0]

Hona chahiye: Mandatory fields bharnе ke baad submit button active hona chahiye aur record submit ho jana chahiye.

Abhi ho raha hai: Submit button disabled hi rehta hai. Aage badhne par "Failed to load Stage 1" error aata hai.

Figure 2 — Submit button inactive

Figure 3 — Failed to load Stage 1

BLK-03 Upload Approval section me HTTP 503 error [P0]

Hona chahiye: Approval upload complete hona chahiye aur record save hona chahiye.

Abhi ho raha hai: Request HTTP 503 (Service Unavailable) ke saath fail ho rahi hai.

Screenshot: available nahi — testing ke dauran timing/error observe kiya gaya.

BLK-04 Payment Collection form me HTTP 503 error [P0]

Hona chahiye: Payment collection form load hona chahiye aur entry save honi chahiye.

Abhi ho raha hai: Request HTTP 503 (Service Unavailable) ke saath fail ho rahi hai.

Figure 4 — Payment collection form par HTTP 503

BLK-05 Payment collection upload karne par error [PO]

Hona chahiye: Payment collection entry successfully upload honi chahiye.

Abhi ho raha hai: Upload ke time error aa raha hai aur entry save nahi ho rahi.

Figure 5 — Payment collection upload error

BLK-06 Checkout collection load nahi ho raha [PO]

Hona chahiye: Checkout collection screen booking details ke saath khulni chahiye.

Abhi ho raha hai: Screen par "failed to load" error aa raha hai.

Figure 6 — Checkout collection fail

Developer Note: BLK-03, BLK-04, BLK-05 aur BLK-06 — ye chaaron same booking write path par fail ho rahe hain, aur PERF-02 me usi path par 75 second ka submit time record hua hai. Ye chaar alag-alag defect hone ke bajaye ek hi function ka execution timeout cross karna lagta hai. Kripya sabse pehle us handler ke server logs check karein.

Section B — Data Accuracy Defects

Galat value save ya display ho rahi hai. Iska seedha asar billing aur reporting par pad raha hai.

DATA-01 Payment received time aur timestamp galat aa raha hai [P1]

Hona chahiye: Payment Collection History me actual transaction time local IST format me dikhna chahiye.

Abhi ho raha hai: Real time ke bajaye raw SQL / UTC timestamp render ho raha hai, isliye received time galat dikh raha hai.

KTAHV · PAYMENT COLLECTION HISTORY							
KTAHV-PMS-9209 · MR. sunaj Kumar Sahoo							
BOOKING ID	GUEST NAME	MOBILE	RECORDS FOUND	TOTAL RECEIVED			
KTAHV-PMS-9209	MR. sunaj Kumar Sahoo	8700236209	1 Payment	₹20,000			
TIME STAMP	BOOKING ID	COLLECTION ID	RECEIVED DATE	CURRENCY	RECEIVED AMOUNT	RECEIPT NO.	COLLECT
31 Jul 2026, 08:10 pm	KTAHV-PMS-9209	PCA_39171	21 Jul 2026, 08:07 pm	INR	₹20,000	123453	Sunaj Sa
Showing 1-1 of 1 record							

Figure 7 — Galat payment timestamp

The screenshot shows a web application interface with a modal window titled "PAYMENT COLLECTION HISTORY" for booking "KTAHV-PMS-9208 - MR. SUNAJ". The modal contains a table with the following data:

TIME STAMP	BOOKING ID	COLLECTION ID	RECEIVED DATE	CURRENCY	RECEIVED AMOUNT	RECEIPT NO.	CALL
31 Jul 2026, 06:17 pm	KTAHV-PMS-9208	PCA_30989	31 Jul 2026, 05:54 pm	INR	₹100	test payment	Sun

Summary statistics at the top of the modal:

- BOOKING ID: KTAHV-PMS-9208
- GUEST NAME: MR. SUNAJ
- MOBILE: 8828027054
- RECORDS FOUND: 1 Payment
- TOTAL RECEIVED: ₹100

Footer of the modal: Showing 1-1 of 1 record

Figure 8 — Payment collection history me SQL time

DATA-02 Advance column me zero dikh raha hai jabki advance record hua tha [P1]

Hona chahiye: Advance column me Rs. 20,000 dikhna chahiye jo entry ki gayi thi.

Abhi ho raha hai: Advance column me 0 show ho raha hai.

AF			
KTAHV-PMS-9209 1 of 5			
	Advance	Balance	Total Booking Amount before discount
			315488
	0	140185.7	
	0	61958.08	
	0	90411.42	73773

Figure 9 — Advance column me zero

DATA-03 Group Booking me Number of People field blank hai [P1]

Hona chahiye: Field me 3 dikhna chahiye, jo booking ke time bhara gaya tha.

Abhi ho raha hai: Field blank render ho raha hai.

KTAHV-PMS-9209 1 of 5

Figure 10 — Number of people blank

DATA-04 V3 me Currency, INR aur Data Source fields blank hain [P1]

Hona chahiye: Teeno fields booking record se populate honi chahiye.

Abhi ho raha hai: V3 me Currency, INR aur Data Source teeno blank hain.

KTAHV-PMS-9209 1 of 5			
Currency	INR Value	Data Source - Auto	Approval Upload
INR		website	https://docs.google.com

			https://docs.google.com

Figure 11 — V3 me blank fields

DATA-05 Foreign currency pending amount calculation me apply nahi ho rahi [P1]

Hona chahiye: Advance Payment Collection me USD select karne par pending amount bhi USD me calculate hona chahiye.

Abhi ho raha hai: Received amount USD me accept ho jata hai, lekin pending balance INR ke hisaab se calculate hota hai. Isse outstanding figure galat aata hai.

The screenshot shows the 'Edit Booking' page in the Kairali CRM System. The 'ADVANCE PAYMENT COLLECTION SECTION' is active. The 'Payment Received Date & Time' is 31-07-2026 12:24. The 'Currency' is set to 'US Dollar (USD)' with a value of 100. The 'Payment Mode' is 'Cash'. The 'Receipt/Transaction No.' is empty. The 'Payment Collection Location' is 'Sung Sahoo'. The 'Payment Collection By' is 'Sung Sahoo'. The 'Uploaded Screenshot' is empty. The 'Total Received Amount' is 100. The 'Net Received Amount %' is 0.00. The 'Pending Amount' is 313240.00. The 'Previous' and 'Next' buttons are visible at the bottom right.

Figure 12 — Pending amount me currency mismatch

DATA-06 Updated Proforma Invoice link show nahi ho raha [P1]

Hona chahiye: Invoice regenerate hone ke baad latest PI link dikhna chahiye.

Abhi ho raha hai: Updated PI link show nahi ho raha.

The screenshot shows a mobile application interface for editing guest details. The form is organized into several sections with labels and input fields. At the top right, there are buttons for 'Confirmed' and 'GENERAL'. The form fields are as follows:

- Guest ID:** 6414
- Edit ID:** KTAHV-PMS-924511
- Edit date & time:** 7/27/2026
- Data source:** Reference
- Client category:** FIT
- Client type:** Individual (marked as CHANGED)
- Mobile:** 971508692131 (marked as CHANGED)
- Is OP patient:** —
- Repeat client:** No
- Address:** ers West, Apartment 2203, Dubai, United Arab (marked as CHANGED)
- Country:** United Arab Emirates (marked as CHANGED)
- State:** Dubai (marked as CHANGED)

- Room no.:** 207-K
- Room type:** Single
- Number of female:** 0
- Number of children:** 0
- Purpose of stay:** None
- Narration:** —
- Booker phone no.:** (marked as CHANGED)
- Payment terms:**
- Payment date (to be p):**

Figure 13 — Updated PI link missing

Section C — Functional Defects

Feature khul to raha hai, lekin specification ke hisaab se kaam nahi kar raha.

FUNC-01 Complimentary select karne par group booking action status update nahi ho raha [P1]

Hona chahiye: "Complimentary" select karne par group booking ka action status update hona chahiye.

Abhi ho raha hai: Action status waisa ka waisa reh jata hai.

- `SELECT * FROM spalabsdomain_Kairali_CRM_Db.ktahv_bookings_fms_v3_part1 where reservation_id=85`
- `use spalabsdomain_Kairali_CRM_Db;`
- `show triggers`

85	KTAHV-PMS-9277	2026-07-31 13:29:20	NULL	0:54:24	Admin
NULL	NULL	NULL	NULL	NULL	NULL

Figure 14 — Action status update nahi ho raha

FUNC-02 Complimentary transport par 100% discount auto apply nahi ho raha [P2]

Hona chahiye: Transport section me "Complimentary" select karne par automatically 100% discount lagna chahiye aur total charge 0 dikhna chahiye.

Abhi ho raha hai: Discount apne aap apply nahi hota; charge manually zero karna padta hai.

Label	Rate	Discount %	Rate after Discount	Tax (CGST/SGST)	Total
Room	32000.00	% 0	32000.00	%	32000.00
Food	34000.00	% 0	34000.00	%	34000.00

Grand Total	312000.00	% 0	312000.00	%	312000.00

Figure 15 — Transport charge zero nahi ho raha

FUNC-03 Discount par 100% ki limit nahi lagi hai [P1]

Hona chahiye: Discount field me maximum 100% accept hona chahiye, usse zyada reject hona chahiye.

Abhi ho raha hai: 100% se zyada value accept ho jati hai, jisse total value negative ho jati hai.

The screenshot shows the 'Kairali CRM System' interface. On the left is a sidebar with navigation options like Dashboard, Marketing Reports, Riya Sharma, and FMS Systems. The main area displays a summary table with the following data:

Item	Value	%	Value	%	Value
Food	34100.00	%	0		34100.00
Treatment	245700.00	%	0		245700.00
Consultation		%	0		0.00
Yoga/Meditation		%	0		0.00
Glosses		%	0		0.00
Total	312300.00	%	100000000000	0.00	0.00
Transportation	Amount Chargeable: 500	%	10		450.00
Other Amount	500	%	10		540.00
Grand Total	-3123499999999999.00	%	0		-3123499999999999.00

Figure 16 — 100% se zyada discount se total negative

FUNC-04 Test Reports upload me Google Drive folder link accept nahi ho raha [P2]

Hona chahiye: Additional Info > Upload Test Reports (Optional) me Google Drive folder link accept hona chahiye.

Abhi ho raha hai: Field Drive folder link accept nahi kar raha.

The screenshot shows the 'Kairali CRM System' interface with the 'Additional Info' tab selected. The form contains the following fields:

- Client Category:** FVT
- Client Type:** INDIVIDUAL
- Payment Terms:** Advance
- Data Source:** Google
- Transportation:** No Transportation Needed
- Referred By (Optional):** Not additional info
- Health Information:** Not additional info
- Upload Test Reports (Optional):** A text box containing a Google Drive link: https://drive.google.com/drive/folders/1WjvY7Tt0kNou_Nx2Pw551G0h8u45. Below the link, there is a red error message: "Give link of Google Drive in g. https://link.google.com/drive/folders/1WjvY7Tt0kNou_Nx2Pw551G0h8u45".

Figure 17 — Drive link reject ho raha hai

FUNC-05 Not working report kiya gaya hai — clarification chahiye [P2]

Hona chahiye: Reporter se confirm karna baaki hai.

Abhi ho raha hai: Sirf "not working" report hua hai; neeche screenshot dekhein. Investigation shuru karne se pehle agar aur detail chahiye to kripya batayein.

Figure 18 — Reported issue, clarification pending

Section D — Filter Defects

Bookings list ke filter values reliable nahi hain.

FILT-01 Booking Taken By filter me naam 2-2 baar repeat ho rahe hain [P2]

Hona chahiye: Dropdown me har user sirf ek baar aana chahiye.

Abhi ho raha hai: Har naam do baar aa raha hai.

Figure 19 — Filter me duplicate values

BOOKING TAKEN

Figure 20 — Duplicate entry close-up

FILT-02 Duplicate entries ka record count alag-alag aa raha hai [P2]

Hona chahiye: Same user ki dono entries ka count same hona chahiye, kyunki vyakti ek hi hai.

Abhi ho raha hai: Ek hi naam ki do entries alag-alag record count de rahi hain.

Figure 21 — Pehli entry ka count

Figure 22 — Duplicate entry ka count

Figure 23 — Filter list comparison

Developer Note: Lagta hai filter non-normalised string par group kar raha hai. Source column me aage-peeche ka space ya case ka farak ek hi vyakti ki do alag key bana dega — isse FILT-01 aur FILT-02 dono explain ho jate hain. Kripya query level par TRIM() aur case normalisation lagayein, aur distinct list ko de-duplicate karein.

Section E — Performance

Edit Booking screen ka response time acceptable limit se bahar hai.

PERF-01 Edit Booking form khulne me 7-8 second lag rahe hain [P2]

Hona chahiye: Form 2-3 second me khul jana chahiye.

Abhi ho raha hai: Observed load time 7-8 second hai.

Screenshot: available nahi — testing ke dauran timing/error observe kiya gaya.

PERF-02 Edit Booking form submit hone me 1 minute 15 second lag rahe hain [P1]

Hona chahiye: Submission 5-7 second me complete honi chahiye.

Abhi ho raha hai: Observed submit time 1 minute 15 second hai.

Screenshot: available nahi — testing ke dauran timing/error observe kiya gaya.

Developer Note: Is section ka sabse zyada impact wala item yahi hai, aur ye Section A ke HTTP 503 failures se juda ho sakta hai.

4. Development Team Se Request

1. Report receive hone ka confirmation dein aur bata dein ki defect IDs log kar liye gaye hain.
2. Section A ke chhe blockers ka ETA dein — inki wajah se abhi bookings complete nahi ho pa rahi.
3. 503 errors ko alag-alag defect maanne se pehle BLK-06 ke neech di gayi common root cause zaroor check karein.
4. Section B, C, D aur E ke items ka fix plan aur target release date share karein.
5. Har defect deploy hone par confirm karein, taaki re-testing schedule ki ja sake.
